THE COMPANY

Greck and Associates Limited (Greck) was established in 2000 and continues to grow, providing modern and innovative solutions to a diverse number of projects specializing in civil, water resources, and environmental engineering. We are a boutique firm, called on by clients to solve unique challenges that require state of the art software, know how and expertise. Our ability to resolve challenges with stream lined solutions and recommendations have helped conservation authorities, municipalities and private landowners achieve more than they thought possible.

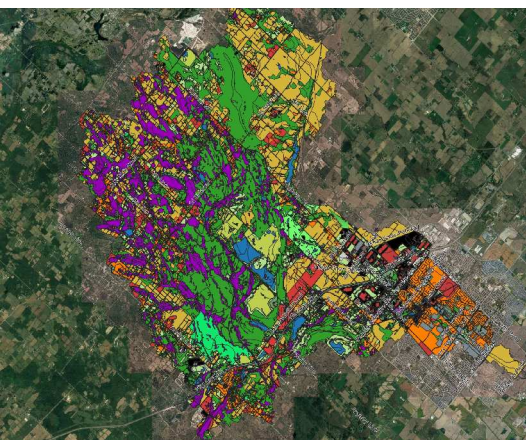

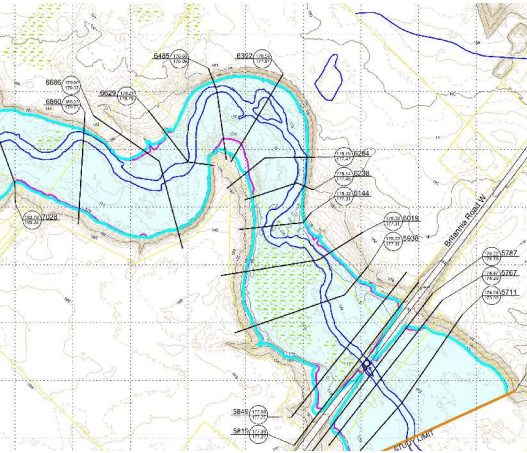

Working together to support your growth. Your success is our success.

Our diverse team of thinkers and problem solvers work together efficiently in a challenging, rewarding and fun environment. Team members are well respected in the industry with in-depth knowledge of all facets needed to be a well rounded professional. At Greck, we attribute our success to our dedicated and determined staff who are committed to delivering a high level of expertise and ingenuity to existing and new challenges found in the industry today. We invest in our staff because we want them to learn, succeed, and grow in the work they do and the lives they live.

WE LOVE WHAT WE DO. We are focused on a common goal of collaborative learning and providing an exceptional product and client experience.

THE POSITION

Play a big part in a smaller growing company. Open the potential to be better recognized and to make meaningful contributions to individuals and communities.

About the Opportunity

We're looking for someone with 5+ years of experience and passion to want to exercise and grow their abilities as a Water Resource Engineer and Project Manager. You appreciate the opportunities that come with working for a smaller company and will want to make a noticeable difference in an essential role that offers unlimited growth.

In this role, you will help lead the water resources component of a wide variety of projects. As a key member of the team and company, you will work together with staff and directly with clients on numerous active projects. You will work directly with corporate managers and owners and will have both technical and business development responsibilities. Projects may include:

- Watershed and sub watershed management studies
- Watershed hydrology and flood plain hydraulics and mapping
- Municipal Infrastructure, urban drainage, and stormwater management
- Stream corridor restoration, natural channel design, channel stabilization, and erosion control
- Fishways, fish passage barrier mitigation, and low head dam decommissioning
- Hydraulic analysis for the design of channels, bridges, culverts, weirs, sewers and fishways
- Public consultation and Environmental Assessments
- Environmental restoration and enhancement projects

Show Us What You've Got

This opportunity will require experience leading projects for a diverse portfolio including both public and private sector clients, oversight, and mentorship of junior and/or intermediate staff, depending on your capabilities. The successful applicant will be involved in a broad range of municipal engineering and water resource focused projects. The successful candidate will:

- Manage the design and execution of civil and water resources engineering projects including stormwater management, flood mitigation, water and wastewater servicing, roadways, stream and natural channel rehabilitation
- Prepare, review and support technical reports
- Have expert knowledge of industry-standard hydrologic and hydraulic modelling software packages
- Have extensive knowledge of local municipal, provincial and conservation authority policies and regulations, specifications and approvals process
- Preparation of proposals, budgets, and workplans
- Licensed to practice as a Professional Engineer in Ontario, or eligible for licensing immediately
- In depth knowledge of PCSWMM, VO, HECRAS, GIS

WHY CHOOSE US

Balance is not necessarily about splitting time equally, but feeling fulfilled and content with the different aspects of your life.

Who We Are

We are a company founded on family values that care about quality work and the satisfaction of our staff and clients. We are passionate about what we do and how we do it. This passion drives us to excel in a competitive market, offering excellent service to clients and a challenging and rewarding work environment for staff. Second to our passion is our transparency. Greck prides itself on being transparent with how it operates and involves staff in many of the decisions it makes.

Benefits, Perks and Resources

We offer all staff a growth-oriented work environment with a highly competitive compensation package, benefits, and endless opportunity for career and life growth!

We offer a close-knit working environment. Your peers, colleagues, senior staff and principal owners are a walk or click away to collaborate, help and advise.

As a smaller firm we are flexible, adaptable and responsive to the needs of our staff. We are not held back by robust internal policies. If you have questions, we have answers and changes can be implemented quickly.

Other benefits include:

- RRSP matching
- Health and dental coverage
- 3-5 weeks vacation
- Yearly performance reviews
- Remote and flexible work hours
- Opportunities for professional growth and development
- Opportunities to attend/participate in conferences and seminars
- A flexible and fun, yet professional work environment
- Regular social events with coworkers
